

SATINE HYBRID

THE SOLUTION THAT ELEVATES YOUR PROJECTS

SATINE HYBRID, with its edge to edge design, offers exceptional flexibility. It can receive, on one or both sides of the partition, a drywall type finish using BA13 plasterboards and a smoothing compound, opening the door to multiple customization options - from paint to decorative wallpaper applications.

TOTAL FREEDOM FOR YOUR PROJECTS :

- 1 or 2 sides with **paint** or **decorative wallpaper**.
- 1 side with an **edge to edge melamine finish** or **cover strip finish**.

- A solution designed for hybrid projects, ensuring visual continuity.

- Rely on the structure of the demountable partition to avoid building full-height partitions from slab to slab.

- Same structure as our demountable partitions.

- A uniform, consistent aesthetic across the entire project.

Our sales team remains at your disposal, feel free to [contact us](#).
