

THE TECHNICAL POST

THAT SIMPLIFIES EVERY INSTALLATION

The new 66 mm Aluminium Closed Post (reference EPPF6) is now available. Designed to simplify the integration of switches, it offers a straightforward and efficient alternative to traditional solutions requiring complex machining on the doorframe.

Key Benefits of the 66 mm Closed Post

The post is installed independently from the doorframe upright.

Eliminates the need for specific machining on the doorframe.

No need to determine the ceiling height in advance.

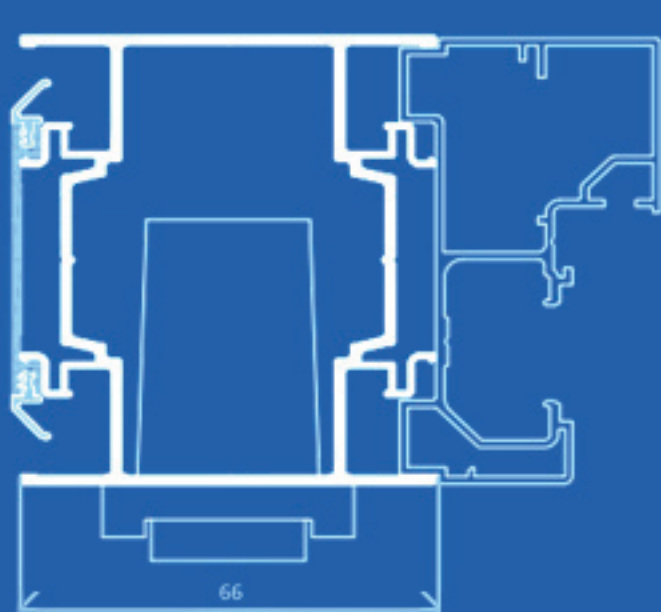

No need to define the door swing direction upfront.

Simplified integration of switches, even in refurbishment projects.

Time savings both in the workshop and on-site.

A reusable solution - ideal for adaptable and evolving workspaces.

Compatible with all our 77 mm thick doorframes.
